

There is much change in the air for those who truly seek to hear and follow the voice and direction of the Lord. We are witnessing the changes today. People are dissatisfied with the traditional churches as they know them because they don't feel life, they don't feel love, they don't feel acceptance. God is breaking His people free from the bondages of past religion and mankind's ideas and rules and regulations. It is FREEDOM in a sense we have never known!

Many people are wondering what is happening? What does this mean? Many are struggling with the shift and the changes that are happening. Pastors who cried out for the real and true moves of God are hurting and wondering why people have left their church. Church members are leaving places, seeking a fire of God that many of talked about but that few are actually seeing. It is change. It is here. It is like the wilderness season. Yet when we will step into the promised land?

There are wells on our lands that simply needed to be re-dug. These were wells that were dug by many of our forefathers and this past year God revisited those wells and sent His people in to declare them re-opened and renewed. The caps of the wells broke open and the water is once again flowing out over the land. The great revivalists of old prophesied and some of them knew that one day future generations would stand on those lands and pray for revival like America once tasted but never has seen. Charles Finney once said in his final days that he was certain that if darkness came on the land that the light would return and shine brighter than before and we are witnessing these days now. The darkness has crept in and is sweeping over our lands but the light of God is about to shine brighter than ever.

God showed me many of the churches on the corners drying up and falling down. I saw congregations getting touched by God in such a way that it was fire and revival and Pastors speaking against it because they weren't in control of it. I saw Pastors getting suddenly transformed in one touch of God and congregations who were bound in religion thinking that their pastor had "lost" it. There is a move of God coming that no one will be able to lay claim on and no one will be able to put a name to it. It won't be The Brownsville Revival because it is not just for Brownsville. That was a foreshadow of what is to come. It won't be The Laughter Movement because that was small piece of the multi-faceted sides of God. It won't be like Azuza Street, because it will be in all the streets. It won't be The Miracles, Signs and Wonders Conference, because they will easily just follow those that believe. God has tried to rain down on His people for such a long time and we have been able to accept small moments of His different touches. When His hand moved in a certain way, people so attacked it and spoke against it or flesh got so in the middle of it, that it later dwindled and faded. What is coming will not fade. It will not dwindle. This will be like a fire that we can not contain that will spread through the people. For a long time we prayed for souls. A true move of God will not occur without the fruit of the harvest...the souls. Where are the souls? The Lord showed me that there is a blindness on the people. He also showed me that the scales will suddenly fall off the eyes and will the church be ready when that day comes? Will we be ready?

With all of this in mind, the change, the church being transformed, the movements of God, the scales falling off the eyes of the people, what does it all mean? The land is groaning for the manifestations of the sons of God! The land is even crying out for us to manifest the fullness of God! The seeds of our forefathers, the prayers of old, the prayers that dedicated this nation to God, they are all still alive and those seeds are springing forth today, shaking the land as they first had to appear dead and then spring to life cracking the earth as they come forth.

The church is also about to spring back to life. It will not look like it used to look. I am certain that none of us know exactly “what” it will look like, but INTEGRITY will be its middle name, LOVE will be written over the door and found in the hearts of the people, COMPASSION will move many to tears, GENTLENESS will replace control, HUMILITY and MEEKNESS will cause the greatest leaders to fall on their faces. This new church will have the very nature and character of Christ. It will be a church of power and will walk in the fullness of God and it will not be one that denies the power thereof. It will be a light in a dark world. When people have no where else to go, they will wonder how these survive and who they know that provides for them. It is that we know HIM! JESUS CHRIST. We will know Him and walk in His direction and hear His voice as easily as we know the wind. We will walk in freedom but it will come with reverence and respect. Holiness and hearts of trevail will usher in the supernatural waves of God that will renew and replenish His bride, the church. He is coming back for a glorious and a spotless bride! She will walk in the honor and rights of one who is to be wedded to the One who holds the keys to the Kingdom. The authority that she walks in, will cause hearts and heads to turn and repent, towards God as they fall in love with the lover of their souls.

In His Love,
Sue Knauff
